

IT Support & Consulting Services

WHAT WE DO

SkyViewTek's (SVT) primary offering is to provide expert advice / solutions / monitoring related to IT infrastructure best practices, which help minimize cyber security risks for our SMB clients (10 to 100 employees).

WHAT WE OFFER

SVT offers our clients the products (hardware / software / cloud) to implement our best practices. With the two combined, we provide overall management of your infrastructure.

WHY CHOOSE SKYVIEWTEK

With SkyViewTek, SMB management have more time to meet and exceed business goals. Additionally, employees are more productive due to computer uptime. This results in greater profitability for the SMB.
